

MONTHLY VEHICLE INSPECTION AND MAINTENANCE REPORT

Truck # _____

Vehicle Make	Year	VIN #

Odometer Reading

(The due date is within 10 days of post month end - Example: January's report would be due February 10th)

Reporting Year: _____ Month: _____ Due Date: _____ Report Date: _____

Inspection Index - After completing each inspection item, enter in the box the status of each item by the following indicators: **P** = pass **F** = failed **S** = serviced. An **F** and an **S** can be entered in the same box if a problem was discovered and repaired immediately. If just an **F** is indicated, that means the problem still exists. If the equipment failure is an out of service issue, the repair must be made before the vehicle is put back in service. Attach copies of repair orders and parts receipts to the back of this report. The company requesting this report retains the right to inspect above stated equipment under any suspicion of false reporting.
